

ASAD AHMAD

SUMMARY

Full Stack Developer with 5 years of extensive experience in Laravel and React.js. Adept at building and scaling web applications, integrating third-party APIs such as OpenAI, Tangella, and Intercom, and creating custom APIs to support diverse platforms. Skilled in managing CRM systems, invoicing tools, and business solutions, while ensuring optimal performance and reliability. Recognized for collaborative problem-solving, clean coding, and delivering innovative, business-oriented solutions.

EXPERIENCE

• DEVIOTECH

Full Stack Developer • DEC 2023 – Present

- Developed and maintained full-stack applications using Laravel and React.js to meet client requirements.
- Integrated and optimized external API such as Open AI, Tangella, Intercom, and Apps Script to enhance application functionality.
- Designed and delivered web API to support seamless integration with mobile applications.
- Collaborated closely with mobile app developers to ensure compatibility and performance of web API across platforms.
- Worked on CRM systems and invoicing platforms, ensuring scalability, usability, and reliability.
- Conducted code reviews, identified performance bottlenecks, and implemented solutions to improve system efficiency.

• CLASSIC PROGRAMMERS

SQA Engineer • FEB 2022 – DEC 2023

- Assisted in the development of scalable web applications using Laravel and React.js frameworks
- Conducted static, dynamic, and regression testing to ensure product reliability and adherence to requirements.
- Created and maintained bug reports using Trello and collaborated with the development team for issue resolution.
- Partnered with designers, developers, and product managers to align deliverables with project specifications
- Contributed to the optimization of database schemas and queries for high-performance applications
